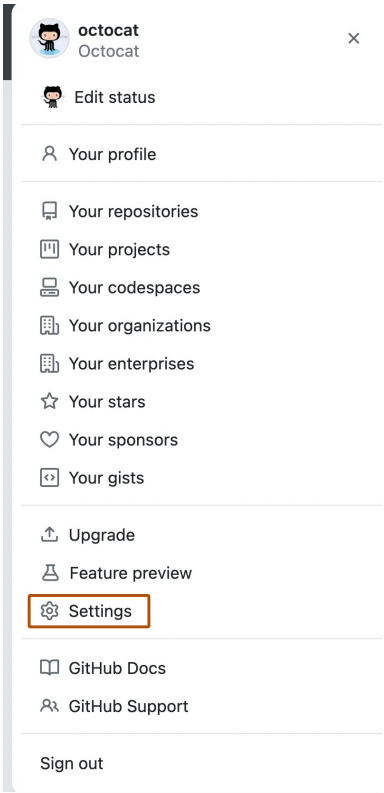
This version of GitHub Enterprise was discontinued on 2023-03-15. No patch releases will be made, even for critical security issues. For better performance, improved security, and new features, upgrade to the latest version of GitHub Enterprise. For help with the upgrade, contact GitHub Enterprise support.

Managing your tab size rendering preference

You can manage the number of spaces a tab is equal to for your personal account.

If you feel that tabbed indentation in code rendered on GitHub Enterprise Server takes up too much, or too little space, you can change this in your settings.

1. In the upper-right corner of any page, click your profile photo, then click **Settings**.



2. In the left sidebar, click **Appearance**.
3. Scroll down to "Tab size preference" and use the dropdown menu to choose your preference.
