Activating optional features for GitHub Apps

Further reading

You can test new optional features for your GitHub Apps.

Warning: Optional features are subject to change.

Activating optional features for GitHub Apps

- 1 Navigate to your account settings.
 - For a GitHub App owned by a personal account, in the upper-right corner of any page, click your profile photo, then click **Settings**.
 - For a GitHub App owned by an organization, in the upper-right corner of any page, click your profile photo, then click **Your organizations**. Then, to the right of the organization, click **Settings**.
- 2 In the left sidebar, click **Developer settings**.
- 3 Click **Edit** next to the GitHub App you want to enable an optional feature for.
- 4 In the settings sidebar, click **Optional features**.
- 5 Next to the optional feature you want to enable for your app, click **Opt-in**.
