

Deleting a workflow run

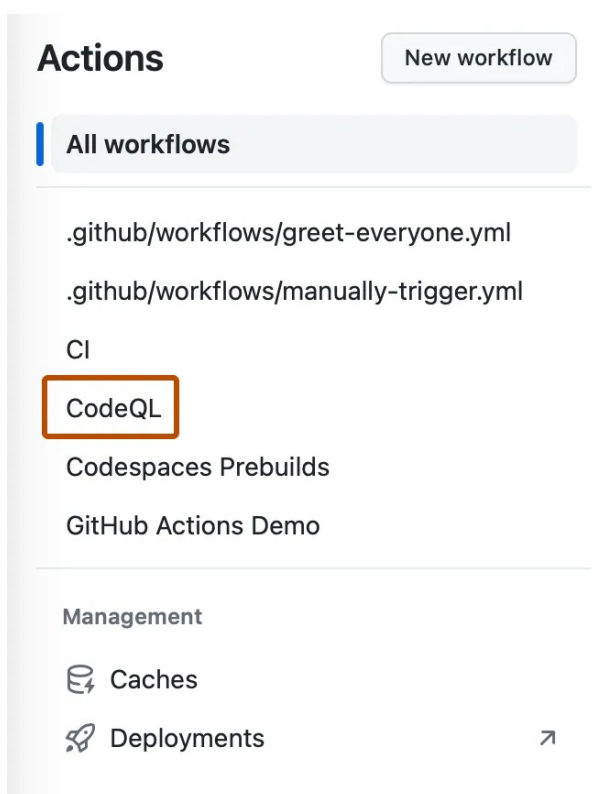

You can delete a workflow run that has been completed, or is more than two weeks old.

Write access to the repository is required to perform these steps.

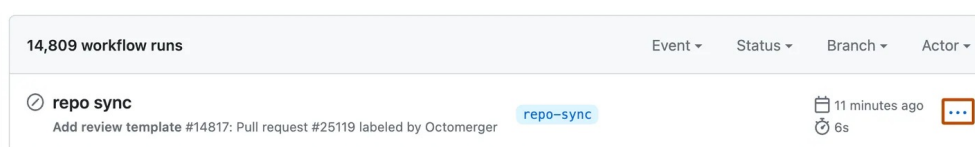

- 1 On GitHub.com, navigate to the main page of the repository.
- 2 Under your repository name, click  **Actions**.

- 3 In the left sidebar, click the workflow you want to see.

- 4 To delete a workflow run, select , then click **Delete workflow run**.

- 5 Review the confirmation prompt and click **Yes, permanently delete this**

workflow run.
