

This version of GitHub Enterprise was discontinued on 2023-03-15. No patch releases will be made, even for critical security issues. For better performance, improved security, and new features, [upgrade to the latest version of GitHub Enterprise](#). For help with the upgrade, [contact GitHub Enterprise support](#).

Setting up notifications

To improve the relevance of your notifications and simplify your triaging workflow, set up your notifications to match your priorities.

About notifications

Notifications provide updates about the activity on your GitHub Enterprise Server instance that you've subscribed to. You can use the notifications inbox to customize, triage, and manage your updates.

Configuring notifications

Choose the type of activity on GitHub that you want to receive notifications for and how you want these updates delivered.
