

The REST API is now versioned. For more information, see "[About API versioning](#)."

Issues

Use the REST API to view and manage issues, including issue assignees, comments, labels, and milestones.

[Issues](#)

[List issues assigned to the authenticated user](#)

[List organization issues assigned to the authenticated user](#)

[List repository issues](#)

[Create an issue](#)

[Get an issue](#)

[Update an issue](#)

[Lock an issue](#)

[Unlock an issue](#)

[List user account issues assigned to the authenticated user](#)

[Issue assignees](#)

[List assignees](#)

[Check if a user can be assigned](#)

[Add assignees to an issue](#)

[Remove assignees from an issue](#)

[Check if a user can be assigned to a issue](#)

[Issue comments](#)

[List issue comments for a repository](#)

[Get an issue comment](#)

[Update an issue comment](#)

[Delete an issue comment](#)

[List issue comments](#)

[Create an issue comment](#)
