

Viewing your milestone's progress

In order to track your milestones, you'll want to get a better understanding of how many open issues and pull requests are remaining.

- 1 On GitHub.com, navigate to the main page of the repository.
- 2 Under your repository name, click  **Issues** or  **Pull requests**.

- 3 In the upper-right corner, click **Milestones**.

- 4 Click the milestone you wish to see more information about.

To better manage your project, you can prioritize issues or pull requests within a milestone. For more information, see "[About milestones](#)."
