

Setting a theme for GitHub Desktop

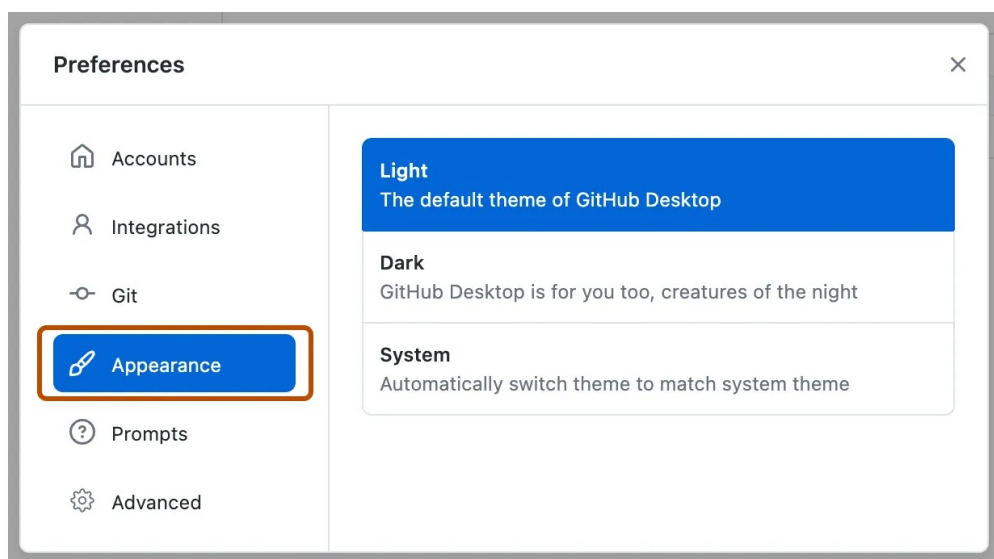

You can set a theme to customize the look and feel of GitHub Desktop.

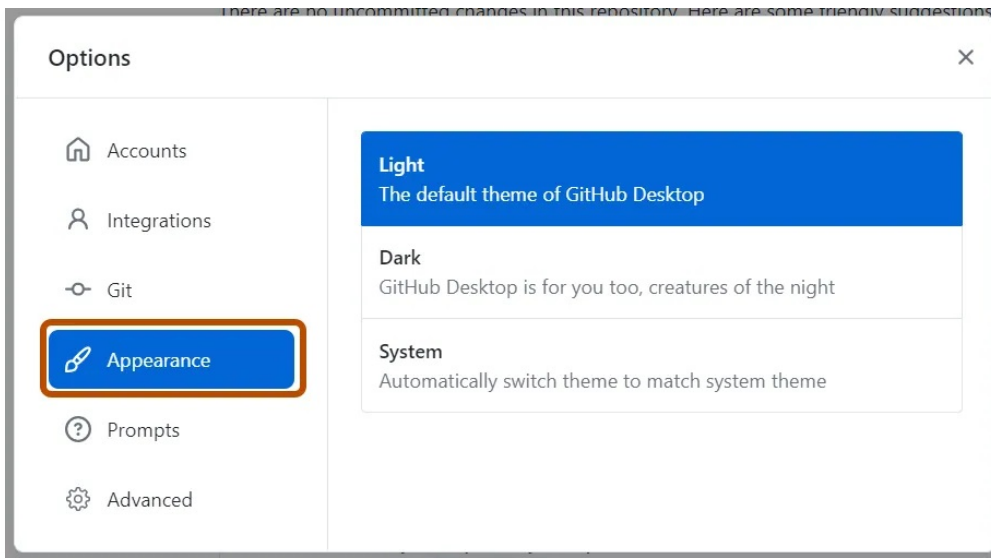

Mac Windows

- 1 In the menu bar, select **GitHub Desktop**, then click **Preferences**.

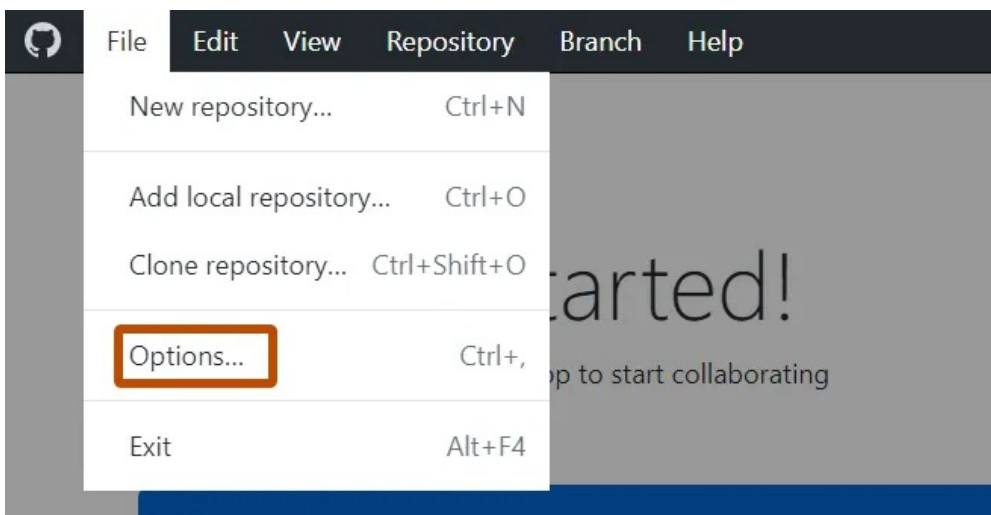

- 2 Click the **Appearance** pane.

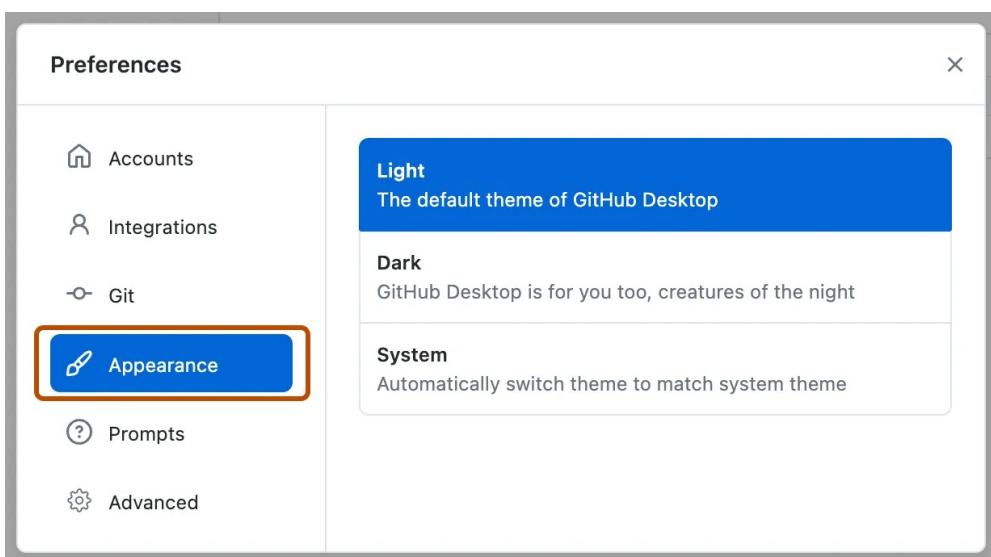

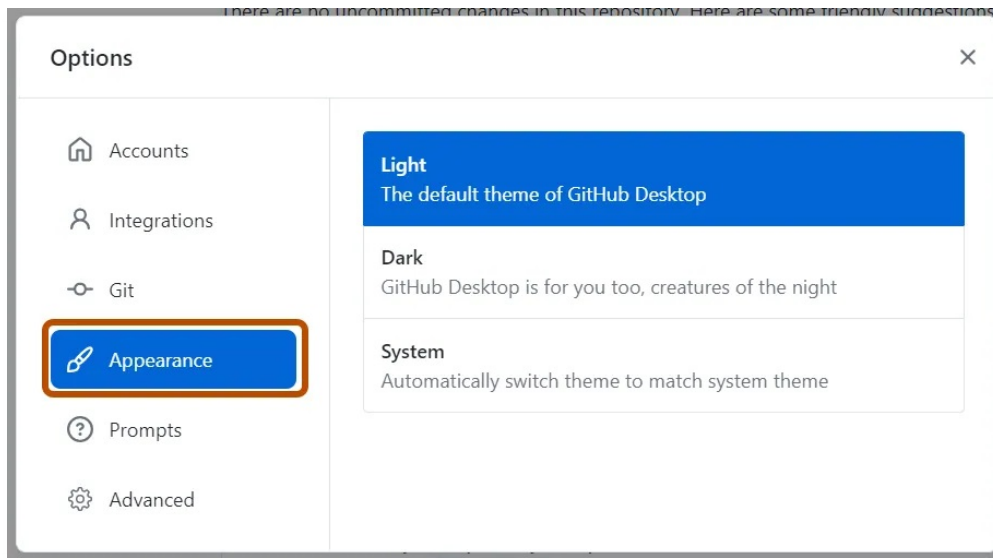

- 3 Click the theme you'd like to use. If you want GitHub Desktop to always match the theme on your computer, select **System**.

- 1 Use the **File** menu, then click **Options**.

- 2 Click the **Appearance** pane.

- 3 Click the theme you'd like to use. If you want GitHub Desktop to always match the theme on your computer, select **System**.
