

# Saving gists with stars

## In this article

[Starring a gist](#)

[Viewing your starred gists](#)

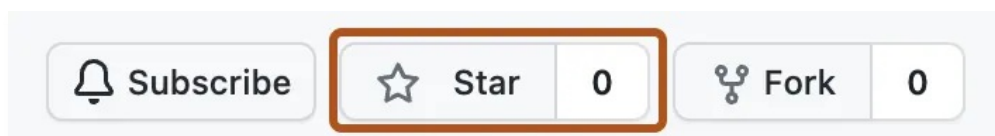

[Further reading](#)

You can star gists to keep track of projects you find interesting.

## Starring a gist

You can star a gist to add it to the "Starred" page. Starring makes it easy to find a gist again later.

- 1 Navigate to [Discover](#) and select the gist you want to star.
- 2 To star the gist, click ☆ **Star** in the top-right corner of the page.

- 3 Optionally, to unstar a previously starred gist, click ★ **Unstar**. This will remove the gist from your starred list.

## Viewing your starred gists

Starring makes it easy to find a gist again later. You can see all the gists starred by going to your [Gist starred page](#).
