

# Countries where SMS authentication is supported

## In this article

Supported countries for SMS authentication

Further reading

---

Because of delivery success rates, GitHub only supports two-factor authentication via SMS for certain countries.

If we don't support two-factor authentication via text message for your country of residence, you can set up authentication via a TOTP mobile application. For more information, see "[Configuring two-factor authentication](#)."

## Supported countries for SMS authentication

---

If your country is not on this list, then we aren't currently able to reliably deliver text messages to your country. We update this list periodically.

- Aland Islands
- Algeria
- Angola
- Anguilla
