

**This version of GitHub Enterprise was discontinued on 2023-03-15.** No patch releases will be made, even for critical security issues. For better performance, improved security, and new features, [upgrade to the latest version of GitHub Enterprise](#). For help with the upgrade, [contact GitHub Enterprise support](#).

# Viewing and triaging notifications

To optimize your notifications workflow, you can customize how you view and triage notifications.

## Managing notifications from your inbox

Use your inbox to quickly triage and sync your notifications across email and mobile.

## Triaging a single notification

When you review and investigate a single notification, you have several triaging options that are optimized for the detailed notification view.

## Customizing a workflow for triaging your notifications

To create an ideal workflow for triaging your notifications, you can adapt and customize these example workflows.
