About billing for enterprise accounts

Viewing the subscription and usage for your enterprise account

You can view the current subscription, license usage, invoices, payment history, and other billing information for your enterprise account.

## Who can use this feature

Enterprise owners and billing managers can access and manage all billing settings for enterprise accounts.

## About billing for enterprise accounts

You can view an overview of your subscription and paid usage for your enterprise account on GitHub.com. If you currently use GitHub Enterprise Cloud with a single organization, we encourage you to create an enterprise account. For more information, see "[Creating an enterprise account](#)."

For invoiced GitHub Enterprise customers, each invoice includes details about billed services for all products. For example, in addition to your usage for GitHub Enterprise Cloud, you may have usage for GitHub Advanced Security, paid licenses in organizations outside of your enterprise account, data packs for Git Large File Storage, or subscriptions to apps in GitHub Marketplace. For more information about invoices, see "[Managing invoices for your enterprise](#)."

In addition to enterprise owners, billing managers can view the subscription and usage for your enterprise account. For more information, see "[Roles in an enterprise](#)" and "[Inviting people to manage your enterprise](#)."

You can connect an Azure Subscription ID to your enterprise account to enable and pay for any usage-based billing for GitHub. For example, GitHub Codespaces usage, and for GitHub Actions or GitHub Packages usage, beyond the amounts included with your account. For more information, see "[Connecting an Azure subscription](#)."

## Viewing the subscription and usage for your enterprise account

You can view the subscription and usage for your enterprise and download a file with license details.

If your license includes Visual Studio subscriptions with GitHub Enterprise, you can identify whether a user account on GitHub.com has successfully matched with a Visual Studio subscriber by downloading the CSV file that contains additional license details. The license status will be one of the following.

- "Matched": The user account on GitHub.com is linked with a Visual Studio subscriber.
- "Pending Invitation": An invitation was sent to a Visual Studio subscriber, but the subscriber has not accepted the invitation.
- Blank: There is no Visual Studio association to consider for the user account on GitHub.com.

- 1 In the top-right corner of GitHub.com, click your profile photo, then click **Your enterprises**.
- 2 In the list of enterprises, click the enterprise you want to view.
- 3 In the enterprise account sidebar, click ⚙️ **Settings**.
- 4 Under ⚙️ **Settings**, click **Enterprise licensing**.
- 5 Under "User licenses", view your total licenses, number of consumed licenses, and your subscription expiration date.
- 6 Optionally, to view details for license usage or download a CSV file with license details, to the right of "User Licenses", click **View details** or ⬇️ **CSV report**.
- 7 Optionally, to view usage details for other features, in the left sidebar, click **Billing**.
