Re-opening a user project

Learn about closing, re-opening, and permanently deleting a project.

Deleting a project

You can delete a project to permanently remove it.

- 1 Navigate to your project.
- 2 In the top-right, click ... to open the menu.

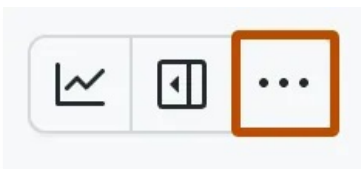

- 3 In the menu, click  **Settings** to access the project settings.
- 4 In the "Danger zone" section, next to "Delete project," click **Delete this project**.
- 5 Read the warnings, then type the name of your project into the text box.
- 6 Click **I understand the consequences, delete this project**.

Closing a project

You can close a project to remove it from the list of projects but retain the contents and ability to re-open the project later.

- 1 Navigate to your project.
- 2 In the top-right, click ... to open the menu.

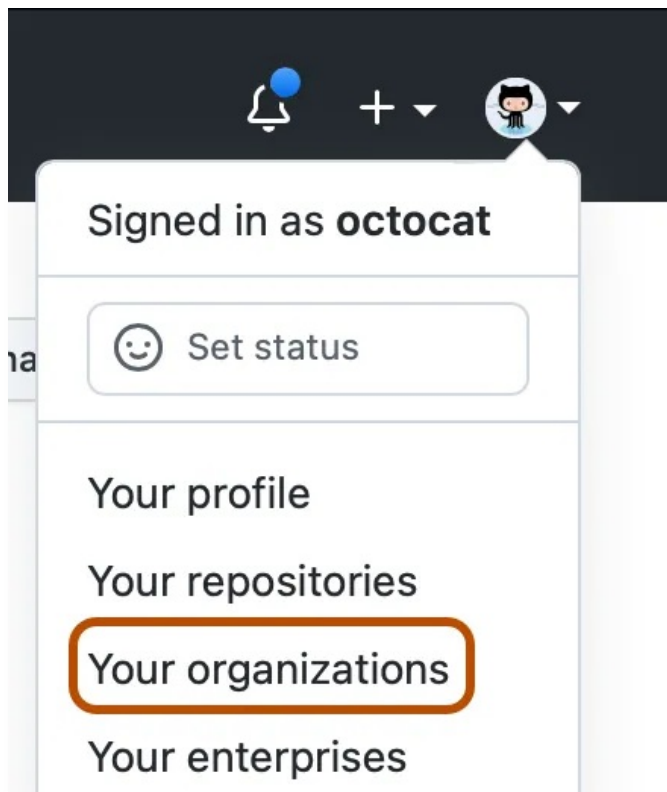

- 3 In the menu, click ⚙️ **Settings** to access the project settings.
- 4 In the "Danger zone" section, next to "Close project," click **Close this project**.

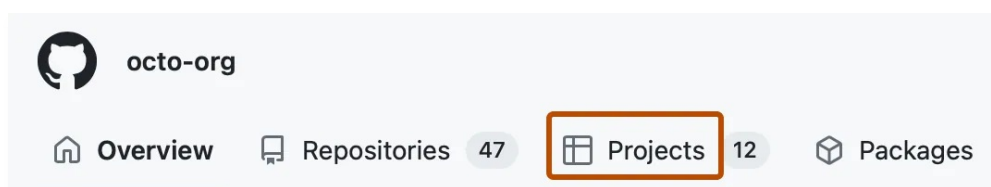

Re-opening an organization project [↗](#)

You can reopen a previously closed project.

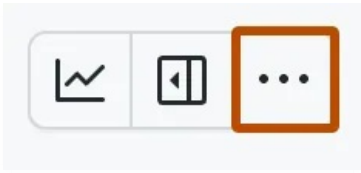

- 1 In the top right corner of GitHub Enterprise Server, click your profile photo, then click **Your organizations**.

- 2 Click the name of your organization.
- 3 At the top of the screen, click  **Projects**.

- 4 In the left sidebar, click **Projects**.
- 5 To show closed projects, above the list of projects click **X Closed**.
- 6 Click the project you want to reopen.
- 7 In the top-right, click ... to open the menu.

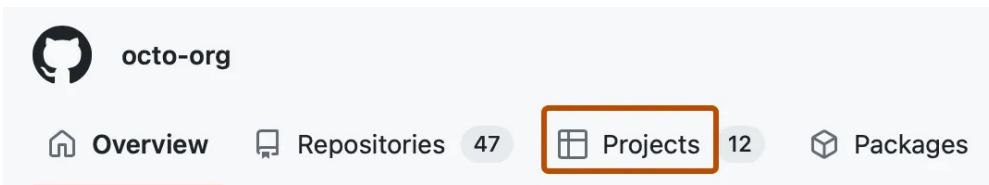

- 8 In the menu, click ⚙️ **Settings** to access the project settings.
- 9 In the "Danger Zone" section, click **Re-open this project**.

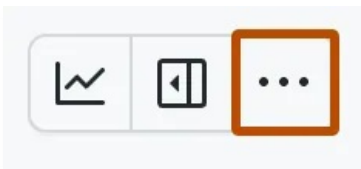

Re-opening a user project [↗](#)

You can reopen a previously closed project.

- 1 In the top right corner of GitHub Enterprise Server, click your profile photo, then click **Your profile**.
- 2 At the top of the screen, click 📁 **Projects**.

- 3 To show closed projects, above the list of projects click **X Closed**.
- 4 Click the project you want to reopen.
- 5 In the top-right, click ... to open the menu.

- 6 In the menu, click ⚙️ **Settings** to access the project settings.
- 7 In the "Danger Zone" section, click **Re-open this project**.
