

Customizing user messages for your enterprise

In this article

About user messages

Creating a global announcement banner

You can create custom messages that users will see on GitHub.com.

About user messages

You can create global announcement banners, which appear at the top of every page.

You can use Markdown to format your message. For more information, see "[About writing and formatting on GitHub](#)."

- 1 To see the rendered message, click **Preview**.
- 2 Review the rendered message.
- 3 At the bottom of the page, click **Save changes**.

Creating a global announcement banner

You can set a global announcement banner to be displayed to all users at the top of every page within your enterprise.

You can also create announcement banners at the organization level. For more information, see "[Creating an announcement banner for your organization](#)."

- 1 In the top-right corner of GitHub.com, click your profile photo, then click **Your enterprises**.
- 2 In the list of enterprises, click the enterprise you want to view.
- 3 In the enterprise account sidebar, click  **Settings**.
- 4 Under  **Settings**, click **Announcement**.
- 5 Under "Announcement", in the text field, type the announcement you want displayed in a banner.
- 6 Optionally, under "Expires on", select the calendar drop-down menu and click an expiration date.
- 7 Optionally, to allow each user to dismiss the announcement, select **Allow users to dismiss the announcement**.

8 Optionally, to preview your message, click **Preview**.

9 Click **Save changes**.
