

Enforcing policies for projects in your enterprise

In this article

- About policies for projects in your enterprise
 - Enforcing a policy for organization-wide projects
 - Enforcing policies for projects (classic)
-

You can enforce policies for projects and classic projects within your enterprise's organizations, or allow policies to be set in each organization.

Who can use this feature

Enterprise owners can enforce policies for projects in an enterprise.

About policies for projects in your enterprise

You can enforce policies to control how enterprise members manage projects and classic projects, or you can allow organization owners to manage policies for projects and classic projects at the organization level. For more information, see "[About projects \(classic\)](#)."

Enforcing a policy for organization-wide projects

Across all organizations owned by your enterprise, you can enable or disable organization-wide project boards, or allow owners to administer the setting on the organization level.

- 1 In the top-right corner of GitHub Enterprise Server, click your profile photo, then click **Enterprise settings**.

- 2 In the enterprise account sidebar, click **Policies**.
- 3 Under "Policies", click **Projects**.
- 4 Under "Organization projects", review the information about changing the setting. Optionally, to view the current configuration for all organizations in the enterprise account before you change the setting, click [View your organizations' current configurations](#).

- 5 Under "Organization projects", select the dropdown menu and click a policy.

Enforcing policies for projects (classic) [↗](#)

Some policies apply only to projects (classic).

Enforcing a policy for repository projects [↗](#)

Across all organizations owned by your enterprise, you can enable or disable repository-level projects, or allow owners to administer the setting at the organization level.

- 1 In the top-right corner of GitHub Enterprise Server, click your profile photo, then click **Enterprise settings**.

- 2 In the enterprise account sidebar, click **Policies**.
- 3 Under "Policies", click **Projects**.
- 4 Under "Repository projects", review the information about changing the setting. Optionally, to view the current configuration for all organizations in the enterprise account before you change the setting, click **View your organizations' current configurations**.

- 5 Under "Repository projects", select the dropdown menu and click a policy.
