

# Creating a new organization from scratch

Create an organization to apply fine-grained access permissions to repositories.

When you create a new organization from scratch, it doesn't have any repositories associated with it. For more information on adding repositories to your organization, see "[Creating a new repository](#)" and "[Transferring a repository](#)."

- 1 In the upper-right corner of any page, click your profile photo, then click **Settings**.

- 2 In the "Access" section of the sidebar, click  **Organizations**.
- 3 Next to the "Organizations" header, click **New organization**.
- 4 Follow the prompts to create your organization. For more information about the plans available for your team, see "[GitHub's plans](#)."
