- Submitting your bank information
- Submitting your tax information
- Enabling two-factor authentication (2FA) on your GitHub account
- Submitting your application to GitHub for approval
- Further reading

Your organization can join GitHub Sponsors to receive payments for your work.

## Who can use this feature

Organization owners can set up GitHub Sponsors for an organization.

## Joining GitHub Sponsors

Any organization that contributes to an open source project and legally operates in a supported region is eligible to become a sponsored organization. If your organization operates in a region that isn't already supported by GitHub Sponsors, join the waitlist at [GitHub Sponsors](#). For a list of supported regions, see [GitHub Sponsors](#).

After you receive an invitation for your organization to join GitHub Sponsors, you can complete the steps below to become a sponsored organization.

To join GitHub Sponsors as an individual contributor outside an organization, see "[Setting up GitHub Sponsors for your personal account](#)."

- 1 Navigate to [GitHub Sponsors](#).
- 2 Click **Get sponsored**.
- 3 To the right of your organization, click **Join the waitlist**.
- 4 Follow the prompts to complete your contact information.
- 5 Decide whether to receive sponsorship payouts via a bank account or through a fiscal host. For more information about setting up and using fiscal hosts, see "[Using a fiscal host to receive GitHub Sponsors payouts](#)."

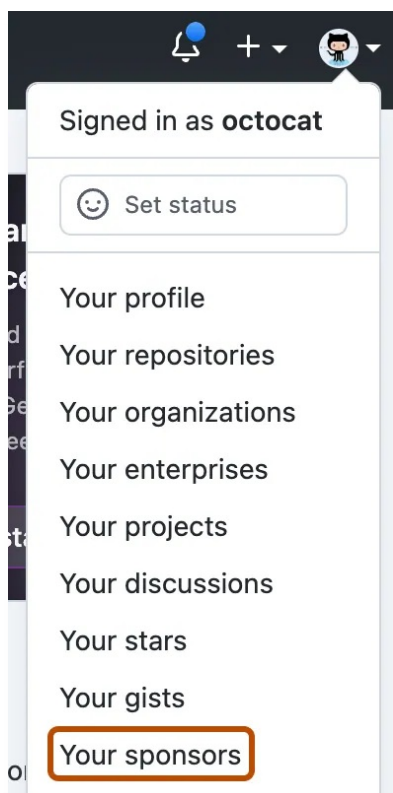

Note that you can only set up your fiscal host information at the time you sign up for GitHub Sponsors. If you decide you want to switch to using a fiscal host after your profile has been set up, please contact us through the [GitHub Support portal](#).

- 6 Review the [GitHub Sponsors Additional Terms](#) and [GitHub Privacy Statement](#), then

click **Join the waitlist**.

## Completing your sponsored organization profile [↗](#)

- 1 In the upper-right corner of any page, click your profile photo, then click **Your sponsors**.

- 2 If a list of your sponsored and eligible accounts is shown, to the right of the account you want to manage, click **Dashboard**.
- 3 In the "Profile" section in the left sidebar, click **Profile details**.
- 4 Under "Short bio", type a brief description of yourself and your work.
- 5 In the "Introduction" section, type a description of the work you'll do with your sponsorships.
- 6 Optionally, choose the organization members that are highlighted on your GitHub Sponsors profile.
  - In the "Meet the team" section, to the right of the section title, click **Edit**.
  - Select up to six organization members, then click **Save**.

## Add up to 12 members to your GitHub Sponsors profile

Search @octo-org members

☒  **The Octocat** octocat

☐  **Octokitten** octokitten

☐  **Octofriend** octofriend

11 remaining

Save

- Optionally, under each highlighted member's name, type a description of the member.

7 Optionally, choose the repositories that are showcased on your GitHub Sponsors profile.

- In the "Featured work" section, to the right of the section title, click **Edit**.
- In the modal that appears, select up to six repositories, then click **Save**.

8 Optionally, select **Optional: Opt-in to get featured on github.com/sponsors**.

9 Click **Update profile**.

## Creating sponsorship tiers

You can publish up to 10 one-time sponsorship tiers and 10 monthly tiers for sponsors to choose from. Each tier has its own one-time or monthly payment amount in US dollars. Publishing tiers is optional.

You can customize the rewards for each tier. For example, rewards for a tier could include:

- Early access to new versions
- Logo or name in README
- Weekly newsletter updates
- Other rewards your sponsors would enjoy

You can give all sponsors in a tier access to a private repository by adding the repository to the tier. For more information, see "[Managing your sponsorship tiers](#)."

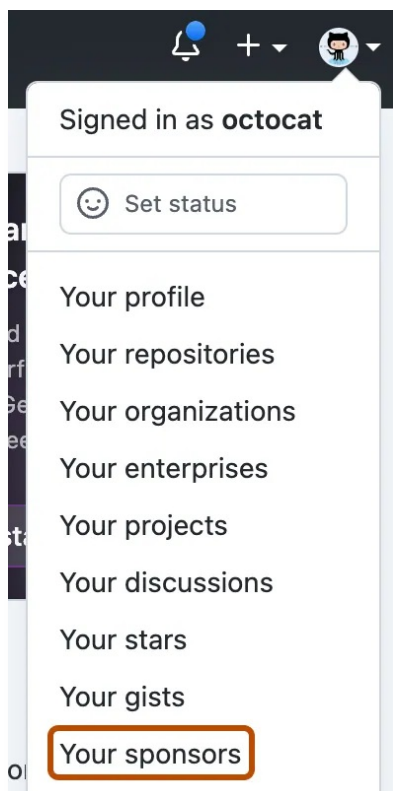

You can include a welcome message with information about accessing or receiving rewards, which will be visible after payment and in the welcome email.

Once you have published a tier, you cannot edit the price of that tier. Instead, you must retire the tier and create a new tier. Existing sponsors will remain on the retired tier until

they change their sponsorship tier, cancel their sponsorship, or their one-time sponsorship period expires.

The maximum price is US\$12,000 per month.

- 1 In the upper-right corner of any page, click your profile photo, then click **Your sponsors**.

- 2 If a list of your sponsored and eligible accounts is shown, to the right of the account you want to manage, click **Dashboard**.
- 3 On the left sidebar, click **Sponsor tiers**.
- 4 To create a monthly tier, click **Add a monthly tier** at the right of the page. Alternatively, to create a tier for one-time payments, click **One-time tiers** and then click **Add a one-time tier**.
- 5 Type a price per month and description for the tier.
- 6 Optionally, to add a welcome message for the tier, select **Display welcome message**, then type your message in the text field that appears.
- 7 Click **Save draft**.
- 8 Proofread your tier, then click **Publish tier**.
- 9 Repeat the steps above until you've published all the tiers you want to offer.

## Submitting your bank information [↗](#)

As a sponsored organization, you will receive payouts to a bank account in a supported region or via a fiscal host.

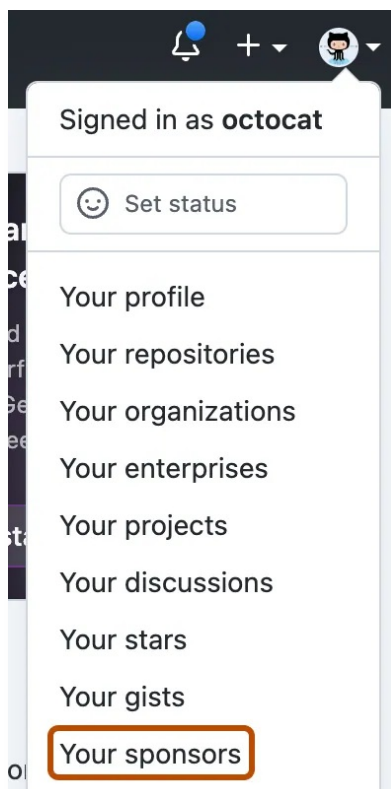

Note that you can only set up your fiscal host information at the time you sign up for GitHub Sponsors. If you originally chose to use a Stripe Connect account when you signed up for your profile, but would like to switch to using a fiscal host, please contact

us through the [GitHub Support portal](#). For more information about setting up and using fiscal hosts, see "[Using a fiscal host to receive GitHub Sponsors payouts](#)."

If you choose to receive payouts to a bank account, your bank account can be a dedicated bank account for your organization or a personal bank account. You can get a business bank account through services like [Stripe Atlas](#). The person setting up GitHub Sponsors for the organization must live in the same supported region, too. For a list of supported regions, see [GitHub Sponsors](#).

When applying for a Stripe Connect account, ensure all of your information is correct before you submit your application. It's difficult to update identity information, like your name and date of birth, after your application has been submitted.

- 1 In the upper-right corner of any page, click your profile photo, then click **Your sponsors**.

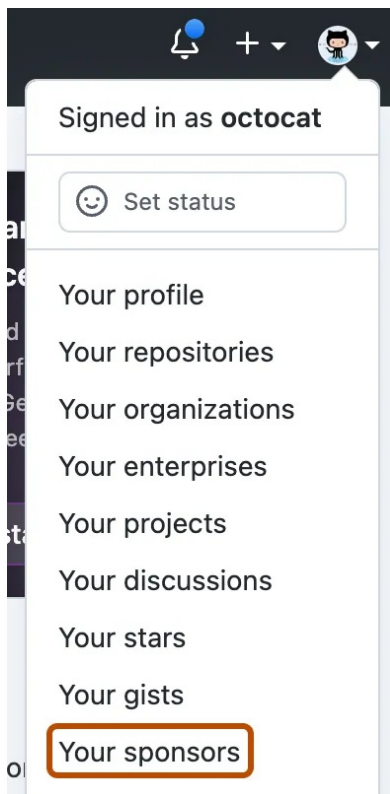

- 2 If a list of your sponsored and eligible accounts is shown, to the right of the account you want to manage, click **Dashboard**.
- 3 Click **Stripe Connect account**.
- 4 Follow the prompts to create your account.

## Submitting your tax information [🔗](#)

For more information about the tax form organizations need to complete, see [Instructions for Form W-8BEN-E](#) on the United States Internal Revenue Service website.

- 1 In the upper-right corner of any page, click your profile photo, then click **Your sponsors**.

- 2 If a list of your sponsored and eligible accounts is shown, to the right of the account you want to manage, click **Dashboard**.
- 3 At the top of the left sidebar, click **Overview**.
- 4 Click **tax forms** .

 Fill out identity, tax, and bank information. Approvals can take up to a week.

- ✓ Create a [Stripe Connect account](#) 
- Add [payout details](#)  to Stripe
- Complete [tax forms](#) 

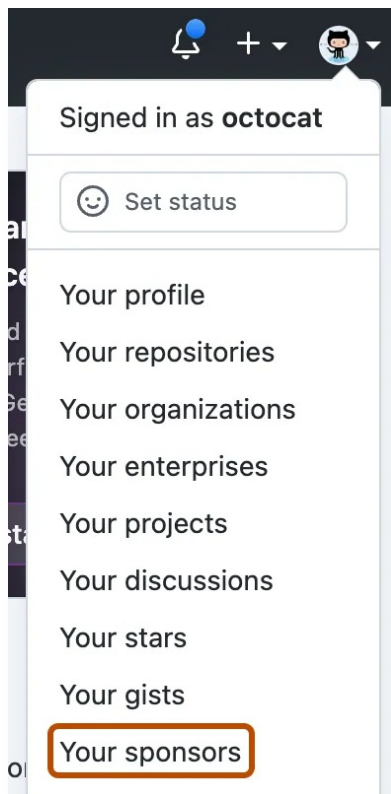

- 5 Complete, sign, and submit the tax form.

## Enabling two-factor authentication (2FA) on your GitHub account

Before your organization can become a sponsored organization, you must enable 2FA for your account on GitHub.com. For more information, see "[Configuring two-factor authentication](#)."

## Submitting your application to GitHub for approval

- 1 In the upper-right corner of any page, click your profile photo, then click **Your sponsors**.

- 2 If a list of your sponsored and eligible accounts is shown, to the right of the account you want to manage, click **Dashboard**.
- 3 Click **Request approval**.

It may take a few days for GitHub to review your application. After we approve your application, your profile will automatically be live on [GitHub Sponsors](#).
