Set up your GitHub Copilot for Individuals trial for your personal account and manage your subscription.

GitHub Copilot can be managed through personal accounts with GitHub Copilot for Individuals or through organization accounts with GitHub Copilot for Business.

About managing your GitHub Copilot for Individuals subscription

This article applies to setting up and managing a GitHub Copilot subscription for your personal account. If you are an organization administrator and want to set up GitHub Copilot for your organization, see "[Managing your GitHub Copilot subscription for your organization](#)."

If you have access to GitHub Copilot through a GitHub Copilot for Business seat, you will not be able to make administrative changes.

For more information about billing in general, like adding a payment method or viewing your payment history, see "[Managing your GitHub billing settings](#)."

Configuring GitHub Copilot settings on GitHub.com

Before you can start using GitHub Copilot, you will need to set up a free trial or subscription. For more information, see "[Managing your GitHub Copilot subscription for your personal account](#)" or "[Managing your GitHub Copilot subscription for your organization](#)."

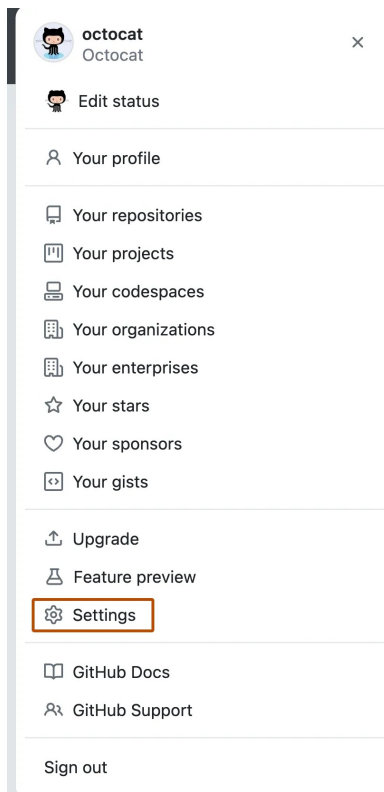

Once you have an active GitHub Copilot trial or subscription, you can adjust GitHub Copilot settings for your personal account on GitHub in the [GitHub Copilot settings](#). The settings apply anywhere that you use GitHub Copilot. You can configure the suggestions that GitHub Copilot offers and how GitHub uses your telemetry data.

Enabling or disabling duplication detection

Note: If you are a member of an organization on GitHub Enterprise Cloud who has been assigned a GitHub Copilot seat through your organization, you will not be able to configure duplication detection in your personal account settings. Your duplication detection setting will be inherited from your organization or enterprise.

GitHub Copilot includes a filter which detects code suggestions matching public code on GitHub. You can choose to enable or disable the filter. When the filter is enabled, GitHub Copilot checks code suggestions with their surrounding code of about 150 characters against public code on GitHub. If there is a match or near match, the suggestion will not be shown to you.

- 1 In the upper-right corner of any page, click your profile photo, then click **Settings**.

- 2 In the left sidebar, click  **GitHub Copilot**.
- 3 Under **Suggestions matching public code**, select the dropdown menu, then click **Allow** to allow suggestions matching public code, or **Block** to block suggestions matching public code.
- 4 To confirm your new settings, click **Save**.

Enabling or disabling Prompt and Suggestion collection

Note: Copilot for Business does not retain any Prompts or Suggestions.

You can choose whether your Prompts and Suggestions are collected and retained by GitHub and further processed and shared with Microsoft and by adjusting your user settings. For more information about data that GitHub Copilot may collect depending on your settings, see "[GitHub Terms for Additional Products and Features](#)" and the [GitHub Copilot privacy FAQ](#).

- 1 In the upper-right corner of any page, click your profile photo, then click **Settings**.

- 2 In the left sidebar, click  **GitHub Copilot**.
- 3 To allow or prevent GitHub using your data, select or deselect **Allow GitHub to use my code snippets for product improvements**.
- 4 To confirm your new settings, click **Save**.

Setting up a GitHub Copilot trial or subscription for your personal account

Before you can start using GitHub Copilot for Individuals, you will need to set up a free trial or subscription.

Note: If you were part of the free GitHub Copilot technical preview that was run between July 2021 and June 2022, you are not eligible for a 30-day trial.

- 1 In the upper-right corner of any page, click your profile photo, then click **Settings**.

- 2 In the "Code, planning, and automation" section of the sidebar, click  **GitHub Copilot**.
- 3 On the GitHub Copilot settings page, click **Enable GitHub Copilot**.
- 4 Choose whether you want to pay monthly or yearly, and click **Continue to get access to Copilot**.
 - If your personal account meets the criteria for a free GitHub Copilot subscription instead of a trial or paid subscription, you will automatically be taken to step 6.
- 5 Follow the steps to confirm your payment details, then click **Submit**.
- 6 Select your preferences, then click **Save and get started**.

You can change these preferences at a later time by returning to your GitHub Copilot settings. For more information, see "[Configuring GitHub Copilot in your environment](#)."

Modifying your Copilot for Individuals subscription

- 1 In the upper-right corner of any page, click your profile photo, then click **Settings**.

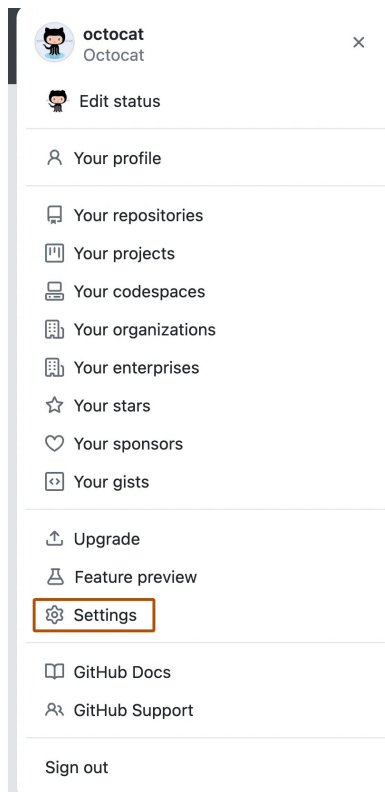

- 2 In the "Access" section of the sidebar, click  **Billing and plans**, then click **Plans and usage**.
- 3 In the "GitHub Copilot" section, select the **Edit** dropdown on the right.
 - If you are on a monthly billing cycle, select **Change to yearly billing**.
 - If you are on a yearly billing cycle, select **Change to monthly billing**.

Canceling your Copilot for Individuals subscription

You can cancel your Copilot for Individuals subscription at any time. The cancellation will take effect at the end of your current billing cycle. You can also cancel your Copilot for Individuals trial, during the 30-day trial period. For more information, see "[Canceling your Copilot for Individuals trial](#)."

- 1 In the upper-right corner of any page, click your profile photo, then click **Settings**.

- 2 In the "Access" section of the sidebar, click  **Billing and plans**, then click **Plans and usage**.
- 3 Under "Add-ons", in the "GitHub Copilot" section, select the **Manage subscription** dropdown on the right and then click **Cancel**.

Add-ons

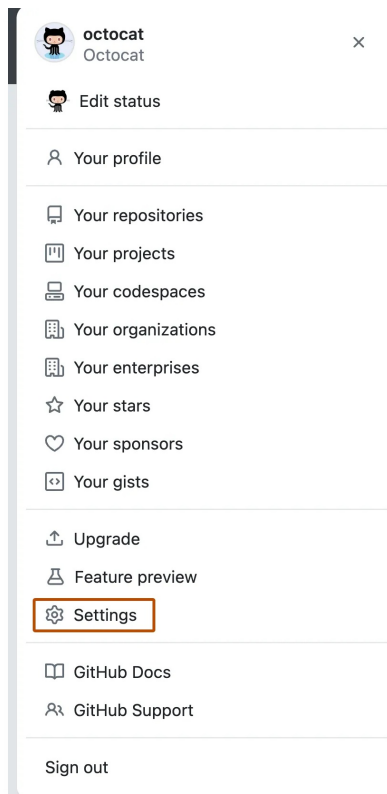

A screenshot of the GitHub Copilot subscription management interface. The header shows the GitHub Copilot logo and the text 'Your AI pair programmer'. Below this is a table with three columns: 'Active subscription', 'Monthly payment', and 'Next payment'. The 'Active subscription' row shows 'Copilot for Individuals'. The 'Monthly payment' row shows '\$10.00'. The 'Next payment' row shows 'Sep 14, 2023'. To the right of the table is a 'Manage subscription' dropdown menu. The dropdown is open, showing two options: 'Switch to annual billing' and 'Cancel'. The 'Cancel' option is highlighted with a red rectangular box. Below the table, there is a note: 'You can upgrade your subscription to yearly billing or cancel any time. [Read billing documentation](#) for more details.'

- 4 In the "Cancel GitHub Copilot" modal, click **I understand, cancel GitHub Copilot**

Canceling your Copilot for Individuals trial

You can cancel your Copilot for Individuals trial at any time during your trial period. If you cancel during your 30-day trial, you won't be charged. Your cancellation will take effect at the end of your trial period. If you do not cancel your trial, you will be automatically enrolled in a paid subscription at the end of your trial period, according to the billing preferences you set up when you started your trial.

- 1 In the upper-right corner of any page, click your profile photo, then click **Settings**.

- 2 In the "Access" section of the sidebar, click  **Billing and plans**, then click **Plans and usage**.
- 3 Under "Add-ons", in the "GitHub Copilot" section, click **Cancel trial**.

Add-ons
