

Tracking progress on your project (classic)

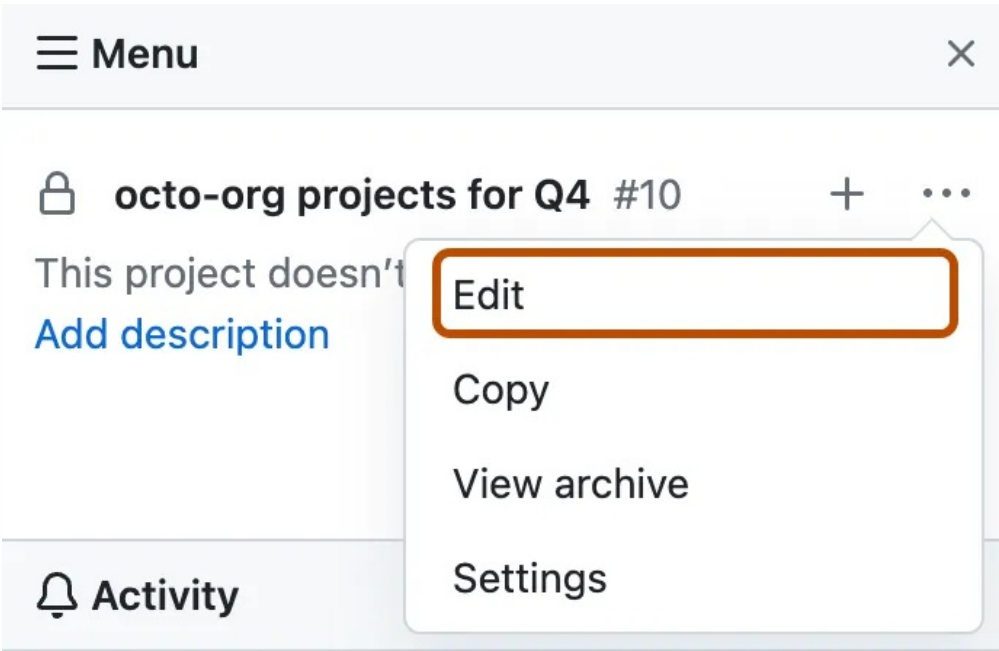

You can see the overall progress of your classic project in a progress bar.

Notes:

- Projects, the all-new projects experience, is now available. For more information about Projects, see "[About Projects](#)."
- You can only create a new classic project board for an organization, repository, or user that already has at least one classic project board. If you're unable to create a classic project board, create a project instead.

If progress tracking is enabled, a progress bar appears above the classic project, on the project listing page, in the issue sidebar, and in references to the project on other classic projects.

- 1 Navigate to the classic project where you want to enable or disable project progress tracking.
- 2 On the top-right side of the classic project, click ≡ **Menu**.
- 3 Click ..., then click **Edit**.

- 4 Select or deselect **Track project progress**.
