

# Deleting a workflow run

You can delete a workflow run that has been completed, or is more than two weeks old.

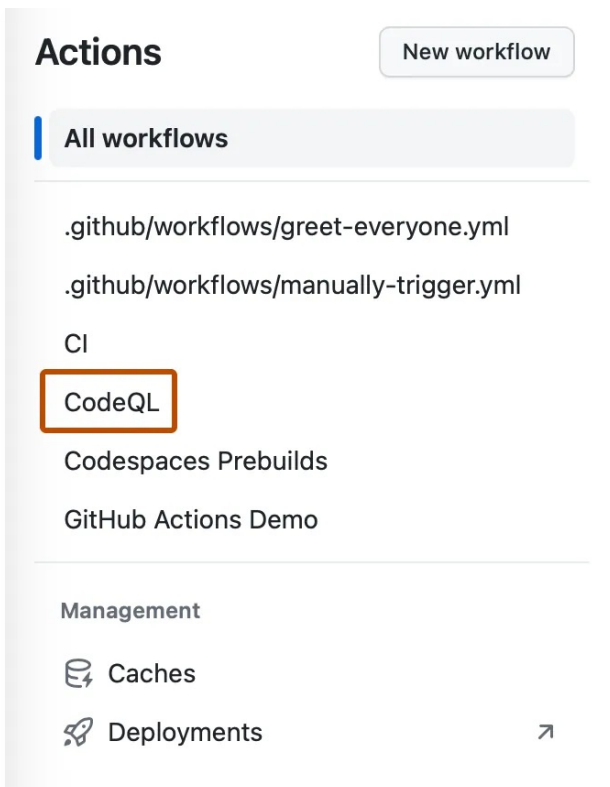

**Note:** GitHub-hosted runners are not currently supported on GitHub Enterprise Server. You can see more information about planned future support on the [GitHub public roadmap](#).

Write access to the repository is required to perform these steps.

- 1 On your GitHub Enterprise Server instance, navigate to the main page of the repository.
- 2 Under your repository name, click **Actions**.

- 3 In the left sidebar, click the workflow you want to see.

- 4 To delete a workflow run, select ..., then click **Delete workflow run**.

14,809 workflow runs		Event ▾	Status ▾	Branch ▾	Actor ▾
🕒	<b>repo sync</b> Add review template #14817: Pull request #25119 labeled by Octomerge	repo-sync	📅 11 minutes ago 🕒 6s	⋮	

- 5 Review the confirmation prompt and click **Yes, permanently delete this workflow run.**
