

Converting an organization into a user

It's not possible to convert an organization into a personal account, but you can create a new personal account and transfer the organization's repositories to it.

- 1 Sign up for a new GitHub Enterprise personal account.
- 2 [Have the user's role changed to an owner.](#)
- 3 Sign in (`https://HOSTNAME/login`) to the new personal account.
- 4 [Transfer each organization repository](#) to the new personal account.
- 5 [Delete the organization.](#)
- 6 [Rename the user](#) to the organization's name.
