- About custom footers for GitHub Enterprise Server
- Configuring custom footers

You can give users easy access to enterprise-specific links by adding custom footers to GitHub Enterprise Server.

Who can use this feature

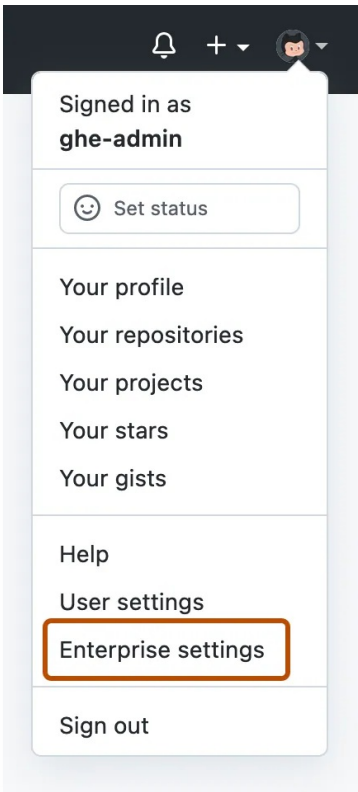

Enterprise owners can configure a custom footer.

About custom footers for GitHub Enterprise Server

You can configure the web UI for GitHub Enterprise Server to display a custom footer with up to five additional links. The custom footer appears above the default GitHub footer, to all users and on all pages.

Configuring custom footers

- 1 In the top-right corner of GitHub Enterprise Server, click your profile photo, then click **Enterprise settings**.

- 2 In the enterprise account sidebar, click ⚙️ **Settings**.

- 3 Under ⚙️ **Settings**, click **Profile**.
- 4 At the top of the page, under the navigation bar, click **Custom footer**.

Enterprise profile

Custom footer

Your enterprise profile URL is <https://github.com/enterprises/hubot-holdings>.

The **hubot-holdings** slug in the URL was set when your enterprise was created and cannot be changed.

Enterprise display name *

Profile picture

- 5 Under each "Footer Link" heading, type a title and URL.
- 6 To save the content and display the custom footer, click **Update custom footer**.
