

Changing the visibility of your organization's dependency insights

You can allow all organization members to view dependency insights for your organization or limit viewing to organization owners.

Organization owners can set limitations for viewing organization dependency insights. All members of an organization can view organization dependency insights by default.

Enterprise owners can set limitations for viewing organization dependency insights on all organizations in your enterprise account. For more information, see "[Enforcing policies for code security and analysis for your enterprise](#)."

- 1 In the top right corner of GitHub.com, click your profile photo, then click  **Your organizations**.

- 2 Next to the organization, click **Settings**.
- 3 In the "Access" section of the sidebar, click  **Member privileges**.
- 4 Under "Member organization permissions", select or deselect **Allow members to view dependency insights**.
- 5 Click **Save**.
