About the activity overview

Managing the visibility of the activity overview on your profile

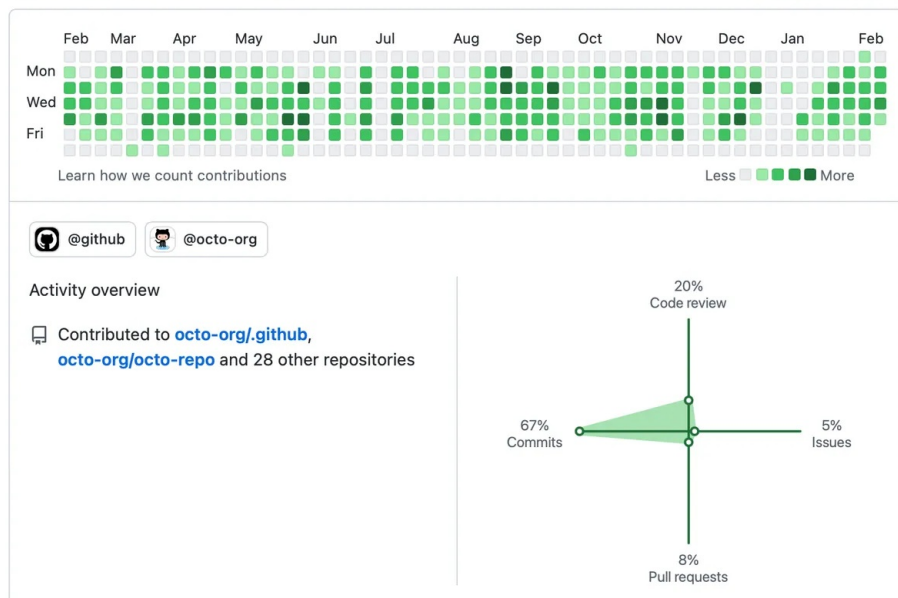

You can enable the activity overview section on your profile to give viewers more context about the types of contributions you make.

About the activity overview [↗](#)

When you enable the activity overview section on your profile, viewers can see more information about the types of contributions you make and repositories you're most active in. A viewer can only see information in the activity overview about repositories they have read access to. Once enabled, a viewer can also filter your contribution graph and activity timeline for a specific organization. For more information, see "[Viewing contributions on your profile](#)."

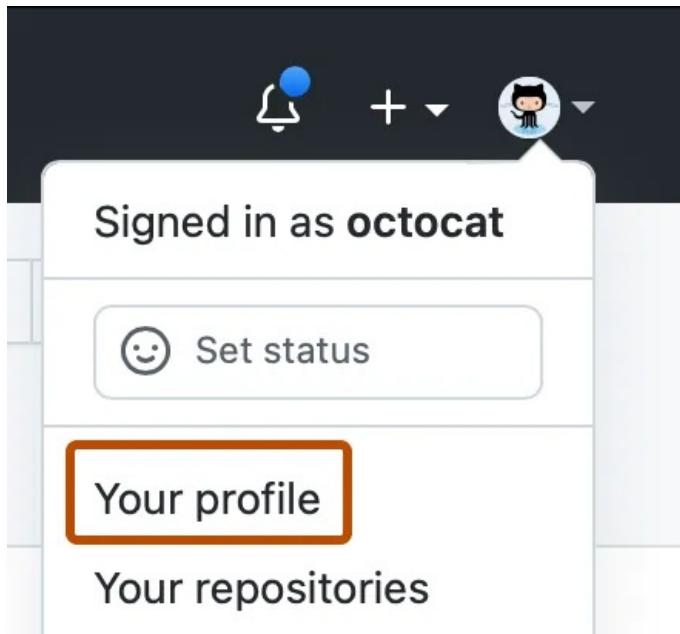

3,980 contributions in the last year

Contribution settings ▾

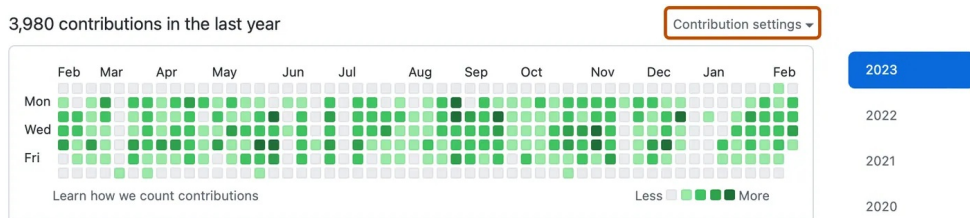

Managing the visibility of the activity overview on your profile [↗](#)

- 1 In the top right corner of GitHub.com, click your profile photo, then click **Your profile**.

- 2 Above your contributions graph, select the **Contribution settings** dropdown menu, then click **Activity overview**.
