

**This version of GitHub Enterprise was discontinued on 2023-03-15.** No patch releases will be made, even for critical security issues. For better performance, improved security, and new features, [upgrade to the latest version of GitHub Enterprise](#). For help with the upgrade, [contact GitHub Enterprise support](#).

# Inviting people to manage your enterprise

## In this article

About users who can manage your enterprise account

Adding an enterprise administrator to your enterprise account

Removing an enterprise administrator from your enterprise account

---

You can add and remove enterprise owners for your enterprise account.

## Who can use this feature

Enterprise owners can add additional enterprise administrators.

## About users who can manage your enterprise account

Enterprise owners can see all of the members and outside collaborators for every organization owned by the enterprise. For more information, see "[Roles in an enterprise](#)."

If you want to manage owners and billing managers for an enterprise account on GitHub.com, see "[Inviting people to manage your enterprise](#)" in the GitHub Enterprise Cloud documentation.

**Tip:** For more information on managing users within an organization owned by your enterprise account, see "[Managing membership in your organization](#)" and "[Managing people's access to your organization with roles](#)."

## Adding an enterprise administrator to your enterprise account

- 1 In the top-right corner of GitHub Enterprise Server, click your profile photo, then click **Enterprise settings**.

- 2 In the enterprise account sidebar, click **People**.
- 3 Under "People", click **Administrators**.
- 4 Above the list of administrators, click **Add owner**.
- 5 Type the username, full name, or email address of the person you want to invite to become an enterprise administrator, then select the appropriate person from the results.
- 6 Click **Add**.

## Removing an enterprise administrator from your enterprise account [🔗](#)

Only enterprise owners can remove other enterprise administrators from the enterprise account.

- 1 In the top-right corner of GitHub Enterprise Server, click your profile photo, then click **Enterprise settings**.

- 2 In the enterprise account sidebar, click  **People**.
- 3 Under " People", click **Administrators**.
- 4 Next to the username of the person you'd like to remove, select the  dropdown menu, then click **Remove owner**.
- 5 Read the confirmation, then click **Remove owner**.
