- Configuring custom footers

You can give users easy access to enterprise-specific links by adding custom footers to GitHub Enterprise Cloud.

Who can use this feature

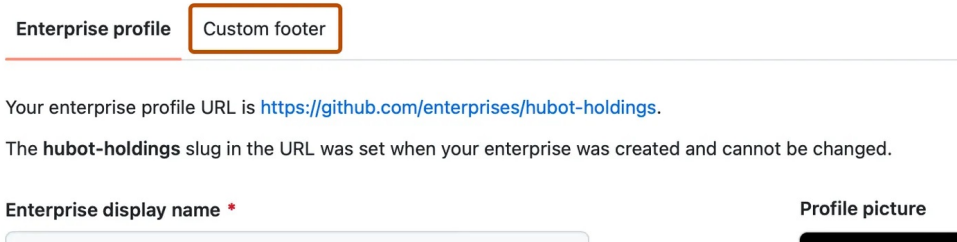

Enterprise owners can configure a custom footer.

About custom footers for your enterprise

You can configure the web UI for GitHub Enterprise Cloud to display a custom footer with up to five additional links. The custom footer appears above the default GitHub footer to all enterprise members and collaborators, on all repository and organization pages for repositories and organizations that belong to the enterprise.

Configuring custom footers

- 1 In the top-right corner of GitHub.com, click your profile photo, then click **Your enterprises**.
- 2 In the list of enterprises, click the enterprise you want to view.
- 3 In the enterprise account sidebar, click ⚙ **Settings**.
- 4 Under ⚙ **Settings**, click **Profile**.
- 5 At the top of the page, under the navigation bar, click **Custom footer**.

- 6 Under each "Footer Link" heading, type a title and URL.
- 7 To save the content and display the custom footer, click **Update custom footer**.
