

**This version of GitHub Enterprise was discontinued on 2023-03-15.** No patch releases will be made, even for critical security issues. For better performance, improved security, and new features, [upgrade to the latest version of GitHub Enterprise](#). For help with the upgrade, [contact GitHub Enterprise support](#).

# Keeping your account and data secure

To protect your personal information, you should keep both your account on your GitHub Enterprise Server instance and any associated data secure.
