

This version of GitHub Enterprise was discontinued on 2023-03-15. No patch releases will be made, even for critical security issues. For better performance, improved security, and new features, [upgrade to the latest version of GitHub Enterprise](#). For help with the upgrade, [contact GitHub Enterprise support](#).

Enforcing team policies in your enterprise

In this article

About policies for teams in your enterprise

Enforcing a policy for team discussions

You can enforce policies for teams in your enterprise's organizations, or allow policies to be set in each organization.

Who can use this feature

Enterprise owners can enforce policies for teams in an enterprise.

About policies for teams in your enterprise

You can enforce policies to control how members of your enterprise on GitHub Enterprise Server manage teams. You can also allow organization owners to manage policies for teams. For more information, see "[About teams](#)."

Enforcing a policy for team discussions

Across all organizations owned by your enterprise, you can enable or disable team discussions, or allow owners to administer the setting on the organization level. For more information, see "[About team discussions](#)."

- 1 In the top-right corner of GitHub Enterprise Server, click your profile photo, then click **Enterprise settings**.

- 2 In the enterprise account sidebar, click **Policies**.
- 3 Under "Policies", click **Teams**.
- 4 Under "Team discussions", review the information about changing the setting. Optionally, to view the current configuration for all organizations in the enterprise account before you change the setting, click **View your organizations' current configurations**.

All organizations: Enabled ▼

View your organizations' current configurations without the enterprise's policy.

5. Under "Team discussions", select the dropdown menu and click a policy.
