Managing the privacy setting for your sponsorship

Managing email updates for your sponsorship

Further reading

You can manage who can see your sponsorship and whether you receive email updates from the sponsored account.

Managing the privacy setting for your sponsorship [↗](#)

1 On GitHub Enterprise Cloud, navigate to the sponsored account's profile.

2 Navigate to your sponsorship dashboard for the account.

- If you're sponsoring a personal account, under the user's name, click **Sponsoring**.

The Octocat
octocat

- If you're sponsoring an organization, to the right of the organization's name, click ♥ **Sponsoring**.

3 Optionally, to manage a sponsorship on behalf of an organization, on the right side of the page, use the **Sponsoring as** dropdown menu, then click the organization.

4 To the right of your current tier, click **Manage**.

5 Choose who can see your sponsorship.

6 Click **Update sponsorship**.

Managing email updates for your sponsorship

You can choose whether an account you sponsor can send you email updates about their work. The sponsored account will not have access to your email address.

You can designate which email address receives updates from the accounts your organization sponsors. For more information, see "[Managing updates from accounts your organization sponsors](#)."

- 1 On GitHub Enterprise Cloud, navigate to the sponsored account's profile.
- 2 Navigate to your sponsorship dashboard for the account.
 - If you're sponsoring a personal account, under the user's name, click **Sponsoring**.
