

**This version of GitHub Enterprise was discontinued on 2023-03-15.** No patch releases will be made, even for critical security issues. For better performance, improved security, and new features, [upgrade to the latest version of GitHub Enterprise](#). For help with the upgrade, [contact GitHub Enterprise support](#).

# Managing code security for your enterprise

You can build security into your developers' workflow with features that keep secrets and vulnerabilities out of your codebase, and that maintain your software supply chain.
