

**This version of GitHub Enterprise was discontinued on 2023-03-15.** No patch releases will be made, even for critical security issues. For better performance, improved security, and new features, [upgrade to the latest version of GitHub Enterprise](#). For help with the upgrade, [contact GitHub Enterprise support](#).

# Showing an overview of your activity on your profile

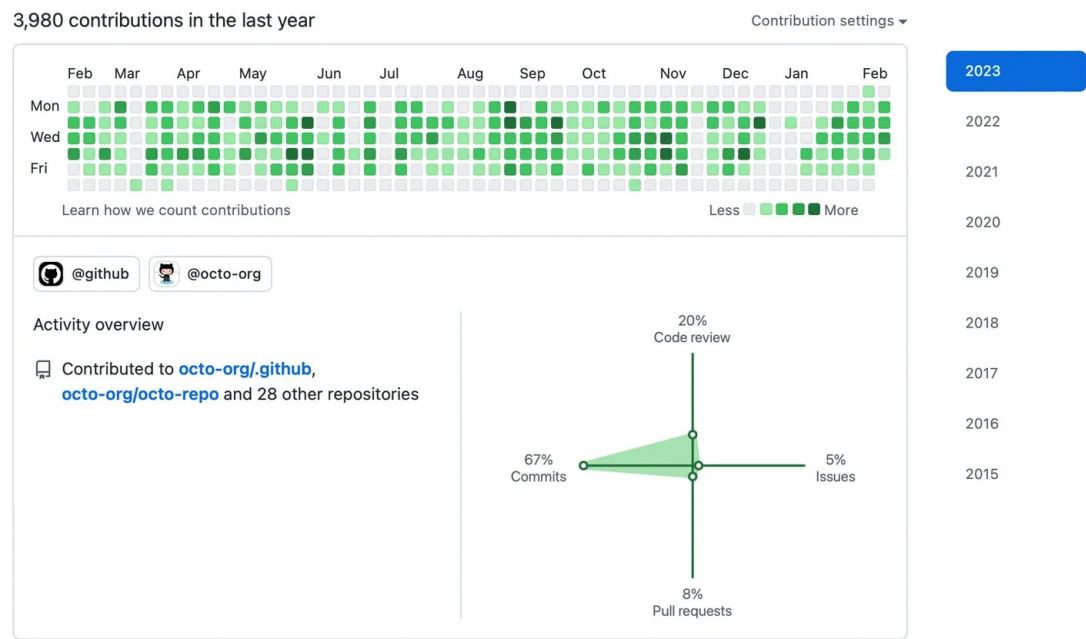

## In this article

- About the activity overview
- Managing the visibility of the activity overview on your profile

You can enable the activity overview section on your profile to give viewers more context about the types of contributions you make.

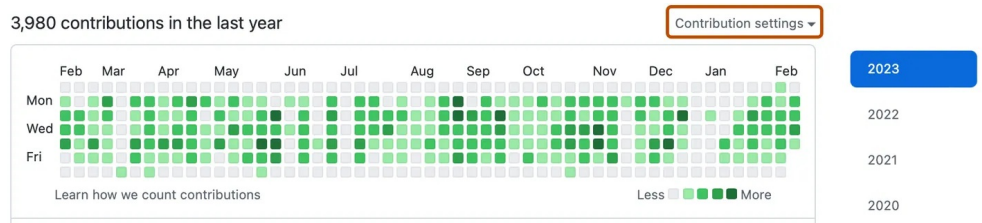

## About the activity overview

When you enable the activity overview section on your profile, viewers can see more information about the types of contributions you make and repositories you're most active in. A viewer can only see information in the activity overview about repositories they have read access to. Once enabled, a viewer can also filter your contribution graph and activity timeline for a specific organization. For more information, see "[Viewing contributions on your profile](#)."

## Managing the visibility of the activity overview on your profile

- 1 In the top right corner of GitHub Enterprise Server, click your profile photo, then click **Your profile**.
- 2 Above your contributions graph, select the **Contribution settings** dropdown menu, then click **Activity overview**.
