

# Setting your team's profile picture

Team maintainers and organization owners can set a profile picture for a team, which is displayed on the team's page.

Unless you set a profile picture for a team, the team profile picture will match the organization's profile picture.

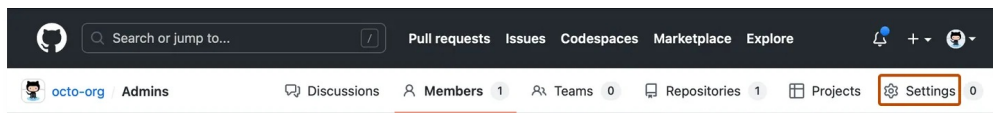

- 1 In the top right corner of GitHub.com, click your profile photo, then click  **Your organizations**.

- 2 Click the name of your organization.
- 3 Under your organization name, click  **Teams**.

- 4 Click the name of the team.
- 5 At the top of the team page, click  **Settings**.

- 6 Under "Profile picture", click **Upload new picture**, then select your desired profile picture.
- 7 Click and drag to crop the image as needed, then click **Set new team avatar**.
