

# Analyzing how your team works with Server Statistics

To analyze how your team works, understand the value you get from GitHub Enterprise Server, and help us improve our products, you can use Server Statistics to review your usage data for GitHub Enterprise Server and share this aggregate data with GitHub.

---

## About Server Statistics

You can use Server Statistics to analyze your own aggregate data from GitHub Enterprise Server, and help us improve GitHub products.

---

## Exporting Server Statistics

You can use your own tools to analyze your GitHub Enterprise Server usage over time by downloading your Server Statistics metrics in a CSV or JSON file.

---

## Requesting Server Statistics using the REST API

You can use your own tools to analyze your GitHub Enterprise Server usage over time by requesting the Server Statistics metrics collected using the REST API.
