---

## Hello World

Follow this Hello World exercise to get started with GitHub Enterprise Server.

---

## Set up Git

At the heart of GitHub is an open-source version control system (VCS) called Git. Git is responsible for everything GitHub-related that happens locally on your computer.

---

## About versions of GitHub Docs

You can read documentation that reflects the GitHub product you're currently using.

---

## GitHub glossary

This glossary introduces common Git and GitHub terminology.

## Guides

### Types of GitHub accounts

Accounts on GitHub Enterprise Server allow you to organize and control access to code.

@GitHub
