

Billing and payments documentation

Learn about the different components of your bill, and how you can view and manage those components.

Overview

Start here

Viewing the subscription and usage for your enterprise account

You can view the current license usage for your GitHub Enterprise Server instance.

About licenses for GitHub Enterprise

You can synchronize your license usage between GitHub Enterprise deployments, and use a license file to unlock each GitHub Enterprise Server instance.

Viewing license usage for GitHub Enterprise

You can view license usage for your enterprise on your GitHub Enterprise Server instance.

Popular

About billing for GitHub Advanced Security

If you want to use GitHub Advanced Security features, you need a license.

Viewing your GitHub Advanced Security usage

You can view usage of GitHub Advanced Security for your enterprise.

Uploading a new license to GitHub Enterprise Server

You can upload your license file for GitHub Enterprise to your GitHub Enterprise Server instance to validate your application.

Guides 

Downloading your license for GitHub Enterprise

Downloading your license for GitHub Enterprise

You can download a copy of your license file for GitHub Enterprise Server.

@GitHub

Syncing license usage between GitHub Enterprise Server and GitHub Enterprise Cloud

You can sync license usage from GitHub Enterprise Server to GitHub Enterprise Cloud to view all license usage across your enterprise in one place and ensure that people with accounts in both environments only consume one user license.
