GitHub Docs

Use the CodeQL CLI to secure your code

Use CodeQL CLI to run CodeQL analyses locally.

GitHub CodeQL is licensed on a per-user basis upon installation. You can use CodeQL only for certain tasks under the license restrictions. For more information, see "About the CodeQL CLI." If you have a GitHub Advanced Security license, you can use CodeQL for automated analysis, continuous integration, and continuous delivery. For more information, see "About GitHub Advanced Security."

Getting started with the CodeQL CLI

About the CodeQL CLI

Setting up the CodeQL CLI

Preparing your code for CodeQL analysis

Analyzing your code with CodeQL queries

Uploading CodeQL analysis results to GitHub

Customizing analysis with CodeQL packs

Using the advanced functionality of the CodeQL CLI

Advanced setup of the CodeQL CLI

About CodeQL workspaces

Using custom queries with the CodeQL CLI

Creating CodeQL query suites

Testing custom queries

Testing query help files

Creating and working with CodeQL packs

Publishing and using CodeQL packs

Specifying command options in a CodeQL configuration file

Query reference files

CodeQL CLI SARIF output

CodeQL CLI CSV output
