Activating optional features for OAuth apps

You can test new optional features for your OAuth apps.

> **Warning:** Optional features are subject to change.

Activating optional features for OAuth apps 🔗

1. Navigate to your account settings.

   - For a GitHub App owned by a personal account, in the upper-right corner of any page, click your profile photo, then click **Settings**.
   - For a GitHub App owned by an organization, in the upper-right corner of any page, click your profile photo, then click **Your organizations**. Then, to the right of the organization, click **Settings**.

2. In the left sidebar, click **Developer settings**.

3. In the left sidebar, click **OAuth apps**.

4. Select the OAuth app you want to enable an optional feature for.

5. In the settings sidebar, click **Optional features**.

6. Next to the optional feature you want to enable for your app, click **Opt-in**.
