Managing invitations to organizations within your enterprise

You can retry or cancel invitations to organizations within your enterprise, either one by one or multiple at a time.

> **Who can use this feature**
> Enterprise owners can manage invitations to organizations within their enterprise.

You can manage invitations to your enterprise or organizations within your enterprise.

For more information about viewing people in your enterprise or managing enterprise owners and billing managers, see "Viewing people in your enterprise" and "Inviting people to manage your enterprise."

For more information about adding or removing members from your organization, see "Inviting users to join your organization" and "Removing a member from your organization."

## Retrying or canceling expired invitations 🔗

Invitations expire after 7 days. You can retry or cancel expired invitations, either one by one or multiple at a time. Failed invitations to outside collaborators can also be found in this view.

1 In the top-right corner of GitHub.com, click your profile photo, then click **Your enterprises**.

2 In the list of enterprises, click the enterprise you want to view.

3 In the enterprise account sidebar, click ⽤ **People**.

4 Under "⽤ People", click **Failed invitations**.

5 Optionally, retry or cancel a single invitation.

- To the right of the invitation you want to cancel or retry, select the ··· dropdown menu and click **Retry invitation** or **Cancel invitation**.

- To confirm, click **Yes, retry** or **Yes, cancel**.

6 Optionally, retry or cancel multiple invitations at the same time.

- Select the checkboxes next to the invitations you want to retry or cancel.

- At the top of the list, select the **X invitations selected** dropdown menu and click **Retry invitations** or **Cancel invitations**.
