About team maintainers

Promoting an organization member to team maintainer

You can give a team member the ability to manage team membership and settings by assigning the team maintainer role.

> **Who can use this feature**
> Organization owners can promote team members to team maintainers.
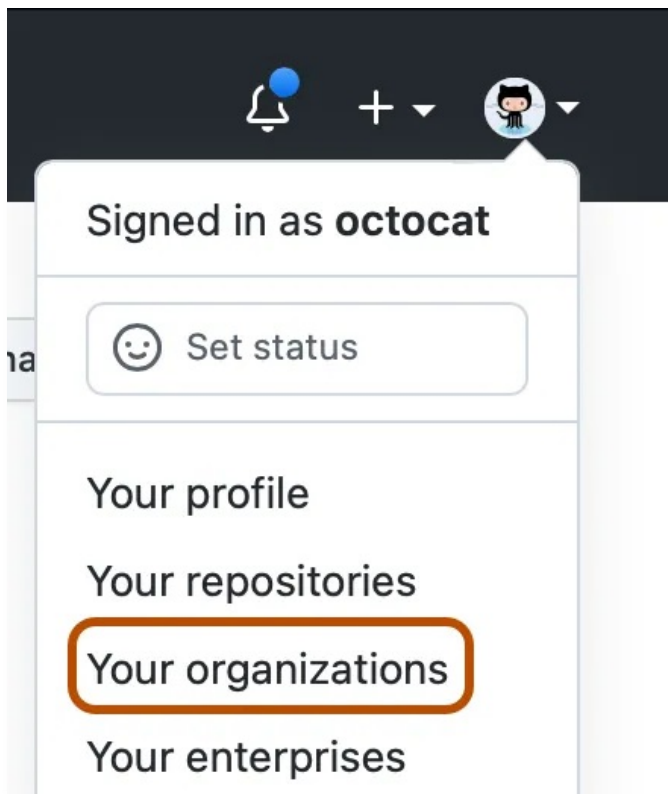

About team maintainers 🔗

People with the team maintainer role can manage team membership and settings.

- Change the team's name and description
- Change the team's visibility
- Request to add a child team
- Request to add or change a parent team
- Set the team profile picture
- Edit team discussions
- Delete team discussions
- Add organization members to the team
- Remove organization members from the team
- Remove the team's access to repositories
- Manage code review assignment for the team

Promoting an organization member to team maintainer 🔗

Before you can promote an organization member to team maintainer, the person must already be a member of the team.
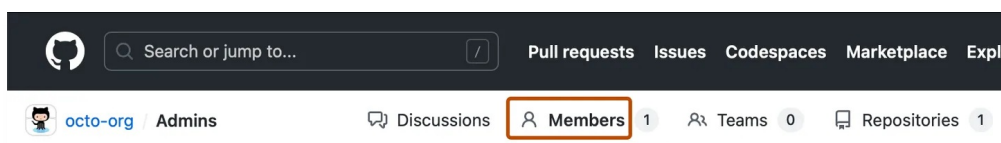

1. In the top right corner of GitHub Enterprise Server, click your profile photo, then click **Your organizations**.

2 Click the name of your organization.

3 Under your organization name, click 🐱 **Teams**.

4 Click the name of the team.

5 At the top of the team page, click ▦ **Members**.

6 Select the person or people you'd like to promote to team maintainer.

7 Above the list of team members, use the drop-down menu and click **Change role...**.
