Managing the publication of GitHub Pages sites for your organization

You can control whether organization members can publish GitHub Pages sites from repositories in the organization.
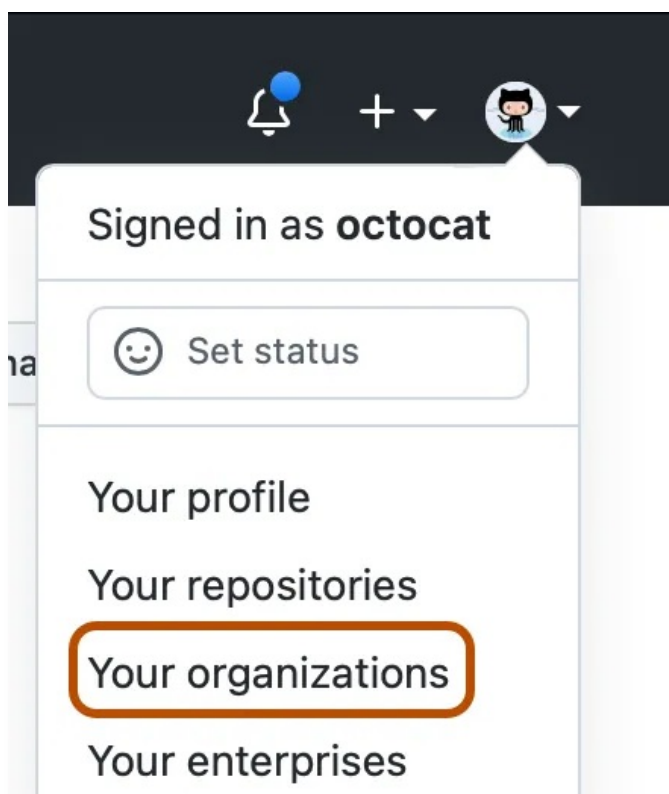

> **Who can use this feature**
> Organization owners can manage the publication of GitHub Pages sites from repositories in the organization.

> GitHub Pages is available in public repositories with GitHub Free and GitHub Free for organizations, and in public and private repositories with GitHub Pro, GitHub Team, GitHub Enterprise Cloud, and GitHub Enterprise Server.

If you disallow publication of GitHub Pages sites, any sites that are already published will remain published. You can manually unpublish the site. For more information, see "Unpublishing a GitHub Pages site."

1 In the top right corner of GitHub Enterprise Server, click your profile photo, then click **Your organizations**.

2 Next to the organization, click **Settings**.

3 In the "Access" section of the sidebar, click 🛧 **Member privileges**.

4 Under "Pages creation", select or deselect **Allow members to publish sites**.

5 Click **Save**.
