Viewing GitHub Packages usage for your personal account

Viewing GitHub Packages usage for your organization

You can view details of your usage of storage and data transfer for GitHub Packages.

> GitHub Packages is available with GitHub Free, GitHub Pro, GitHub Free for organizations, GitHub Team, GitHub Enterprise Cloud, GitHub Enterprise Server 3.0 or higher, and GitHub AE.
>
> GitHub Packages is not available for private repositories owned by accounts using legacy per-repository plans. Also, accounts using legacy per-repository plans cannot access registries that support granular permissions, because these accounts are billed by repository. For the list of registries that support granular permissions, see "About permissions for GitHub Packages." For more information, see "GitHub's plans."

Viewing GitHub Packages usage for your personal account 🔗

Anyone can view GitHub Packages usage for their own personal account.

1 In the upper-right corner of any page, click your profile photo, then click **Settings**.

2. In the "Access" section of the sidebar, click ⊟ **Billing and plans**, then click **Plans and usage**.

3. Under "GitHub Packages", view details of your usage for data transfer.

4. Under "Storage for Actions and Packages", view details of your storage usage for GitHub Actions and GitHub Packages combined. Storage usage data synchronizes every hour.

5. Optionally, next to "Usage this month", click **Get usage report** to email a CSV report of storage use for GitHub Actions and GitHub Packages to the account's primary email address.

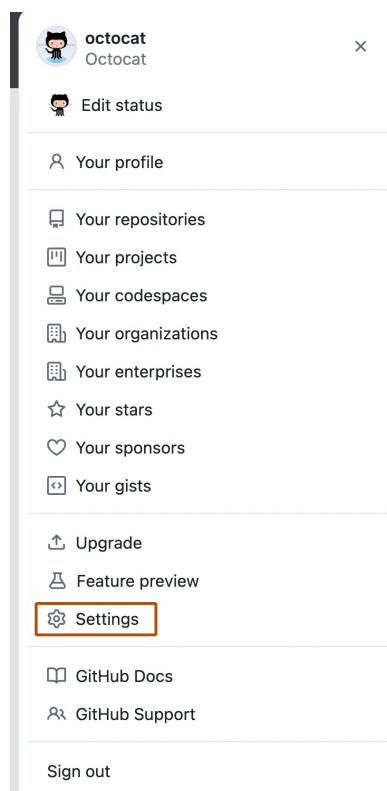

Viewing GitHub Packages usage for your organization 🔗

Organization owners and billing managers can view GitHub Packages usage for an organization. For organizations managed by an enterprise account, only the organization owners can view GitHub Packages usage in the organization billing page.

1. In the upper-right corner of any page, click your profile photo, then click **Settings**.

2. In the "Access" section of the sidebar, click 🏢 **Organizations**.

3. Next to the organization, click **Settings**.

4. If you are an organization owner, in the "Access" section of the sidebar, click ⊟ **Billing and plans**.

5. Under "GitHub Packages", view details of your usage for data transfer.

6   Under "Storage for Actions and Packages", view details of your storage usage for GitHub Actions and GitHub Packages combined. Storage usage data synchronizes every hour.

7   Optionally, next to "Usage this month", click **Get usage report** to get an email containing a link for downloading a CSV report of storage use for GitHub Actions, GitHub Packages, and GitHub Codespaces. The email is sent to your account's primary email address. You can choose whether the report should cover the last 7, 30, 90, or 180 days.
