GitHub's plans

In this article

An overview of GitHub's pricing plans.

About GitHub's plans 🔗

GitHub offers free and paid plans for storing and collaborating on code. Some plans are available only to personal accounts, while other plans are available only to organization and enterprise accounts. For more information about accounts, see "Types of GitHub accounts."

See costs and features for each plan at GitHub Pricing. For information on planned features and products, see the GitHub public roadmap.

When you read GitHub Docs, make sure to select the version that reflects your plan. For more information, see "About versions of GitHub Docs."

GitHub Free for personal accounts 🔗

With GitHub Free for personal accounts, you can work with unlimited collaborators on unlimited public repositories with a full feature set, and on unlimited private repositories with a limited feature set.

With GitHub Free, your personal account includes:

- GitHub Community Support
- Dependabot alerts
- Deployment protection rules for public repositories
- Two-factor authentication enforcement
- 500 MB GitHub Packages storage
- 120 GitHub Codespaces core hours per month
- 15 GB GitHub Codespaces storage per month
- GitHub Actions features:
  - 2,000 minutes per month
  - Deployment protection rules for public repositories

GitHub Pro 🔗

In addition to the features available with GitHub Free for personal accounts, GitHub Pro includes:

- GitHub Support via email
- 3,000 GitHub Actions minutes per month
- 2 GB GitHub Packages storage
- 180 GitHub Codespaces core hours per month
- 20 GB GitHub Codespaces storage per month
- Advanced tools and insights in private repositories:
    - Required pull request reviewers
    - Multiple pull request reviewers
    - Protected branches
    - Code owners
    - Auto-linked references
    - GitHub Pages
    - Wikis
    - Repository insights graphs: Pulse, contributors, traffic, commits, code frequency, network, and forks

GitHub Free for organizations ⚭

With GitHub Free for organizations, you can work with unlimited collaborators on unlimited public repositories with a full feature set, or unlimited private repositories with a limited feature set.

In addition to the features available with GitHub Free for personal accounts, GitHub Free for organizations includes:

- GitHub Community Support
- Team access controls for managing groups
- 2,000 GitHub Actions minutes per month
- 500 MB GitHub Packages storage

GitHub Team ⚭

In addition to the features available with GitHub Free for organizations, GitHub Team includes:

- GitHub Support via email
- 3,000 GitHub Actions minutes per month
- 2 GB GitHub Packages storage
- Advanced tools and insights in private repositories:
    - Required pull request reviewers
    - Multiple pull request reviewers
    - Draft pull requests
    - Team pull request reviewers
    - Protected branches
    - Code owners
    - Scheduled reminders
    - GitHub Pages
    - Wikis
    - Repository insights graphs: Pulse, contributors, traffic, commits, code frequency, network, and forks

- The option to enable or disable GitHub Codespaces

  - Organization owners can choose to enable or disable GitHub Codespaces for the organization's private repositories, and can pay for the usage of members and collaborators. For more information, see "[Enabling or disabling GitHub Codespaces for your organization](#)" and [Choosing who owns and pays for codespaces in your organization](#)."

GitHub bills for GitHub Team on a per-user basis. For more information, see "[About per-user pricing](#)."

GitHub Actions usage is free for standard GitHub-hosted runners in public repositories, and for self-hosted runners. For private repositories, each GitHub account receives a certain amount of free minutes and storage for use with GitHub-hosted runners, depending on the account's plan. Any usage beyond the included amounts is controlled by spending limits.

GitHub Enterprise 🔗

GitHub Enterprise includes two deployment options: GitHub Enterprise Cloud, which is cloud-hosted and part of GitHub.com, and GitHub Enterprise Server, which is self-hosted. For more information, see "[About GitHub for enterprises](#)" in the GitHub Enterprise Cloud documentation.

In addition to the features available with GitHub Team, GitHub Enterprise includes:

- GitHub Enterprise Support
- Additional security, compliance, and deployment controls
- Authentication with SAML single sign-on
- Access provisioning with SAML or SCIM
- Deployment protection rules with GitHub Actions for private or internal repositories
- GitHub Connect
- The option to purchase GitHub Advanced Security. For more information, see "[About GitHub Advanced Security](#)."

GitHub Enterprise Cloud specifically includes:

- 50,000 GitHub Actions minutes per month
- 50 GB GitHub Packages storage
- A service level agreement for 99.9% monthly uptime
- The option to centrally manage policy and billing for multiple GitHub.com organizations with an enterprise account. For more information, see "[About enterprise accounts](#)."
- The option to provision and manage the user accounts for your developers, by using Enterprise Managed Users. For more information, see "[About Enterprise Managed Users](#)."

To see how GitHub compares to GitLab, Bitbucket, and Jenkins, see [Comparing GitHub to other DevOps solutions](#).

You can set up trials to evaluate GitHub Enterprise Cloud and GitHub Enterprise Server. For more information, see "[Setting up a trial of GitHub Enterprise Cloud](#)" and "[Setting up a trial of GitHub Enterprise Server](#)."
