Tracking progress on your projects (classic)

Learn how to track your work on classic project

> **Notes:**
>
> - Projects, the all-new projects experience, is now available. For more information about Projects, see "About Projects" and for information about migrating your classic project, see "Migrating from projects (classic)."
> - You can only create a new classic project board for an organization or user that already has at least one classic project board. You cannot create new classic projects for repositories. If you're unable to create a classic project board, create a project instead.

Adding issues and pull requests to a project (classic)

You can add issues and pull requests to a classic project in the form of cards and triage them into columns.

Adding notes to a project (classic)

You can add notes to a classic project to serve as task reminders or to add information related to the classic project.

Tracking progress on your project (classic)

You can see the overall progress of your classic project in a progress bar.

Filtering cards on a project (classic)

You can filter the cards on a classic project to search for specific cards or view a subset of the cards.

Archiving cards on a project (classic)

You can archive classic project cards to declutter your workflow without losing the historical context of a project.
