# Unlinking your Patreon account from your GitHub account

You can disconnect your Patreon account from your GitHub account to stop receiving recognition for Patreon sponsorships on GitHub.

> **Note:** Unlinking your Patreon account from your GitHub account **will not** cancel any existing sponsorships you have created through Patreon. To stop sponsoring maintainers through Patreon, see How do I cancel? in the Patreon documentation.

1. In the upper-right corner of any page, click your profile photo, then click **Settings**.

2. In the left sidebar, click ⚙ **Account**.

3. In the "Unlink Patreon account" section, click **Unlink Patreon account**.
