# Setting your team's profile picture

Team maintainers and organization owners can set a profile picture for a team, which is displayed on the team's page.

Unless you set a profile picture for a team, the team profile picture will match the organization's profile picture.
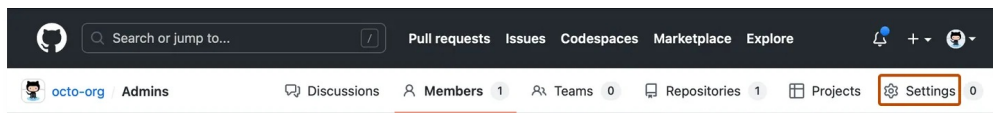

1 In the top right corner of GitHub Enterprise Server, click your profile photo, then click **Your organizations**.

2 Click the name of your organization.

3 Under your organization name, click 🗫 **Teams**.

4 Click the name of the team.

5 At the top of the team page, click ⚙ **Settings**.

6   Under "Profile picture", click **Upload new picture**, then select your desired profile picture.

7   Click and drag to crop the image as needed, then click **Set new team avatar**.
