This version of GitHub Enterprise was discontinued on 2023-03-15. No patch releases will be made, even for critical security issues. For better performance, improved security, and new features, upgrade to the latest version of GitHub Enterprise. For help with the upgrade, contact GitHub Enterprise support.

Monitoring activity in your enterprise

You can view user and system activity by leveraging audit logs, push logs, dashboards, webhooks, and log forwarding.

Reviewing audit logs for your enterprise
